**Mr. Shepard:**

I am writing to urge you to select Alternative 2 of the draft Environmental Impact Statement for the Western Oregon Plan Revisions. As a local resident, I have seen the negative effect that the current Northwest Forest Plan has had on the economy of the region and believe that revisions to this plan are long overdue.

Under the Northwest Forest Plan, we were promised a certain level of timber sales. Those sales never happened and communities suffered. I believe that Alternative 2 is the best plan.

RECEIVED

Sincerely,

NOV 01 2007
